

# Upload the data to CardioScan

**STEP 1** Connect the Mobil-O-Graph download cable to your PC or Laptop

**STEP 2** Turn the monitor on  and Ensure the monitor is showing 'CO'

**STEP 3** Click Existing Patient icon and then select the correct Patient Record.

or click Create Patient File and enter details to begin.

**STEP 4** To download patient data click the 'Read Out Device' icon

- Select Yes when asked to confirm patient measurement

**STEP 5** Select Yes when this prompt appears .

- This is **VERY IMPORTANT** to you do this, to avoid issues on your next patient's test results.

**STEP 6** Measurement series window will appear.

- enter time when patient woke up = "End of Sleep Interval"
- when patient went to bed = "Start of Sleep Interval"

**STEP 7** Screen will now display the following:

- Click on Green Arrow and wait until the Arrow changes to Three Arrow

**STEP 8** Then click the Exit icon to finish.

CardioScan will promptly deliver your BP Report on BeatBox.
